Val Leach introduced the world's first "break-in" relay in 1919. Since then, the company has applied its expertise to the design and manufacture of electrical switching and control devices used under the most severe environments. LEACH[®] relays have become the industry's standard for power switching in aircraft, missiles, satellites, ground vehicles, and other sophisticated electronics/industrial applications.

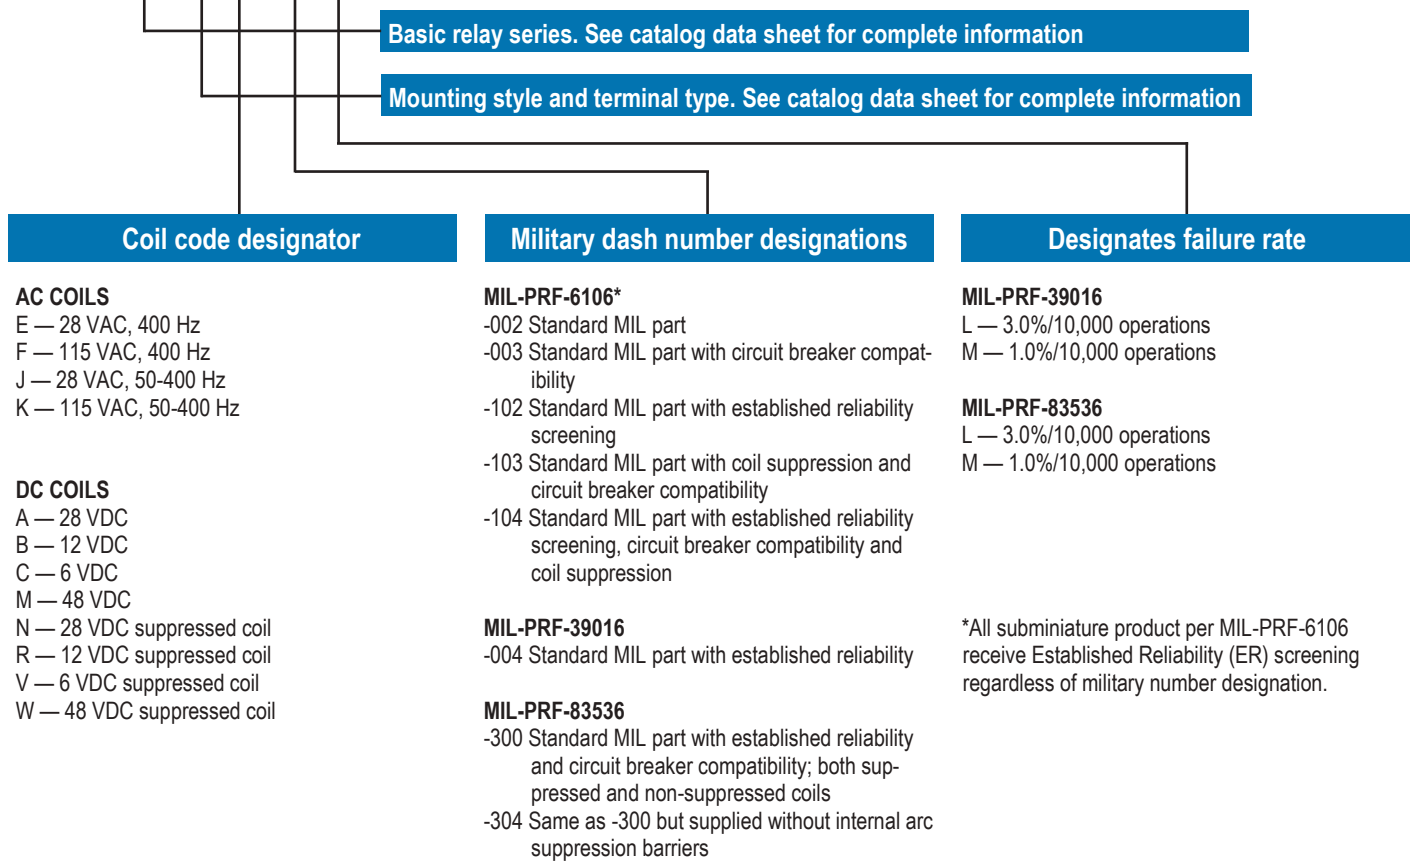

This brochure lists our current MIL-qualified products available factory-direct or off-the-shelf through our extensive network of distributors. For pricing, availability and delivery information, contact Esterline Power Systems at (714) 736-7599 or distributor listed in this brochure.

Great care has been taken in compiling and checking the information in this document to ensure that it is current and accurate as of the date of publication; however, please consult the appropriate Qualified Product Listing at <http://www.landandmaritime.dla.mil> for current information regarding QPL status.
